

# Thank you for contacting EVCharger Expert!

Dear customer!

We are ready to provide our quote for you but we need information about your property.

Our Self Survey instruction has several questions:

## 1. The information about you and your request:

Name, Address, Cell phone, Email, Charger or outlet.

## 2. Please find and send us pictures of electrical panels\*.

a)The main panel has the PG&E meter and is located outside.

b)Sub-panels located in the garage or inside in the house/apartment (laundry, hall, etc.).

**\*The breakers size on the picture must be visible and readable!**

## Examples:

### For Single-family house:

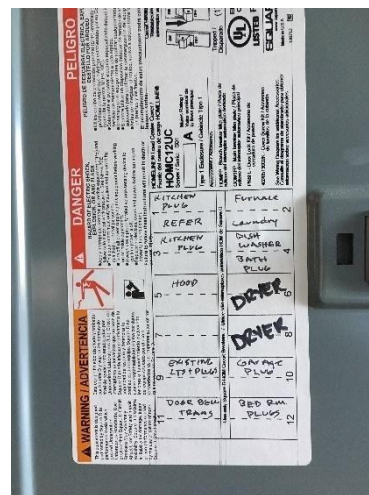

1. Main panel (outside).

2. Sub panel.

3. The sticker with info.

### For Multi-Family and condo:

1. Your Main breaker

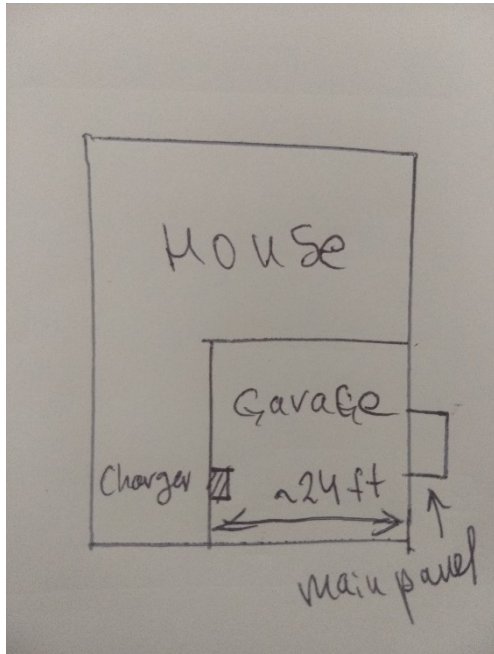

2. Apartment sub panel

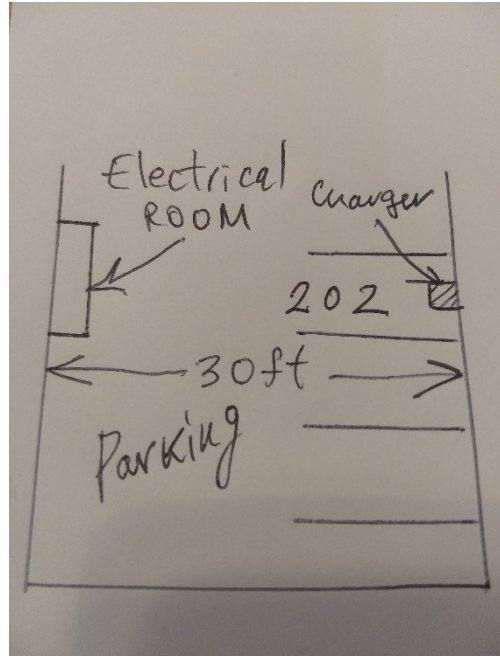

3. You can send us the simple sketch or the picture where we can see your panel (panels) and charger/outlet location. We need to see the distance between the charger and the electrical panels (approximately of course).

**Examples.**

**For house owners**

**For Multi-Family Housing**

**THAT'S IT!  
WE ARE WAITING FOR YOUR PICTURES.  
THANK YOU FOR YOUR ASSISTANCE!**

**Attention!**

We do not respond to requests that lack the information previously requested.  
Please remember more information is better than any puzzle or "Change of order".
